Publication Date

Mar, 2017

Table of Contents

Build 5.00.00.016 – Mar 20, 2017

Enhancements

1. **Improved Microsoft Office Interop Excel.**
   Microsoft Office Interop Excel Dll updated to the latest available version 15.0.4569.1506 for improved compatibility with Office 2013 and higher.

Build 5.00.00.015 – Feb 24, 2016

Resolved Issues

1. **Resolved issues with exporting without Currency Symbol**

   Issue noticed when exporting to excel without Currency Symbol not removing the Currency Symbol when the symbol contained the letter C. This issue has since been resolved.

Build 5.00.00.014 – July 08, 2015

Resolved Issues

1. **Resolved issues with Increase and Decrease Width under Favorites in SmartList.**

   Issues noticed with increase and decrease width resulting in Advanced SmartList failing to load SmartList object. Issue has since been resolved

Build 5.00.00.013 – May 29, 2015

Resolved Issues

1. **Fixed issues with Exporting to Excel for Summing feature.**

   Issues noticed with Summing on Footer only in Advanced SmartList resulted in excel file generated without Sum. This issue was resolved.

   Problem occurred with Summing on footer only while item was grouped resulted in a group count on the export file instead of sum on the export. This issue has been resolved.

   Issue noticed on Currency columns in Advances SmartList being exported in Text format to Excel. Format corrected to numerical format.

Build 5.00.00.012(rebuild) – Feb 18, 2015

Resolved Issues

1. **Fixed issues with Exporting without currency option.**

   Original release for exporting without currency option was exporting to 2 decimal places. This has been resolved so it will export currency to the correct number of decimal places displayed in the SmartList.

Build 5.00.00.012 – Feb 11, 2015

Enhancements

1. **Enhancement Option to exclude Currency on Export.**
   This is a new option available when selecting the Excel link to export. Users can now choose to export the SmartList without the currency symbol or with the currency symbol. Selecting with Currency symbol will include the currency Symbol that is shown in SmartList. Selecting Without the excel file will not include the Currency Symbol.

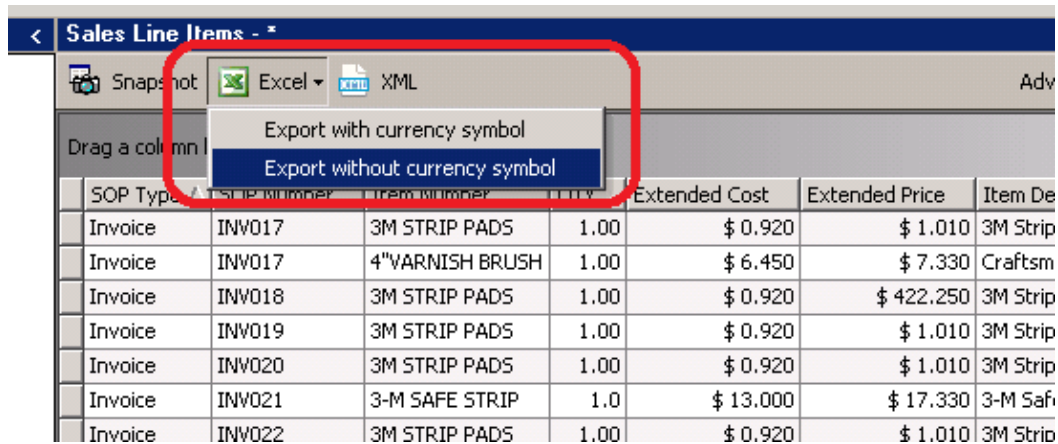

Build 5.00.00.011(rebuild) – Dec 29, 2014

Enhancements

1. **Enhancement Redesign of loading data.**
   Removed Loading Data please wait message and replaced it with new message imbedded in the Grid display for Advanced Smartlist. While Smartlist is being loaded message will appear in grid indicating "Refreshing Grid Contents…" Should user attempt to export while grid is being loaded they will receive a pop up message indicating there is nothing to Export. Users can also now interrupt loading of SmartList by accessing the search window and exits the search window without issues.
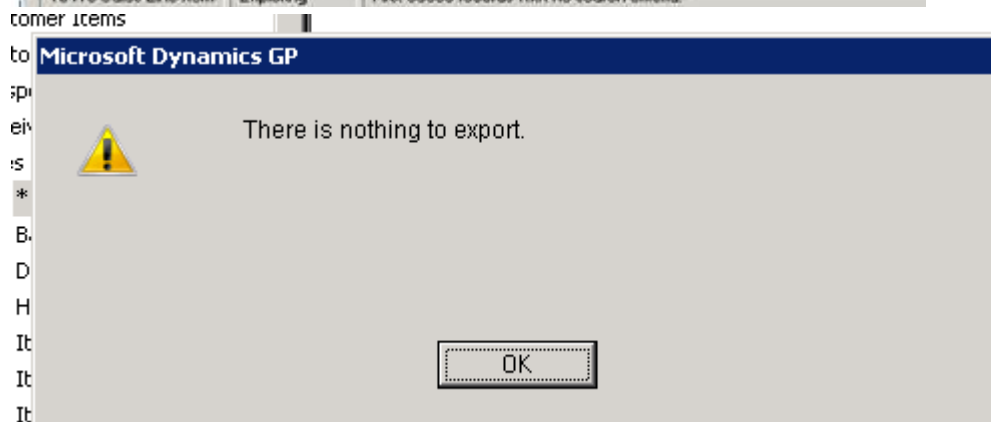

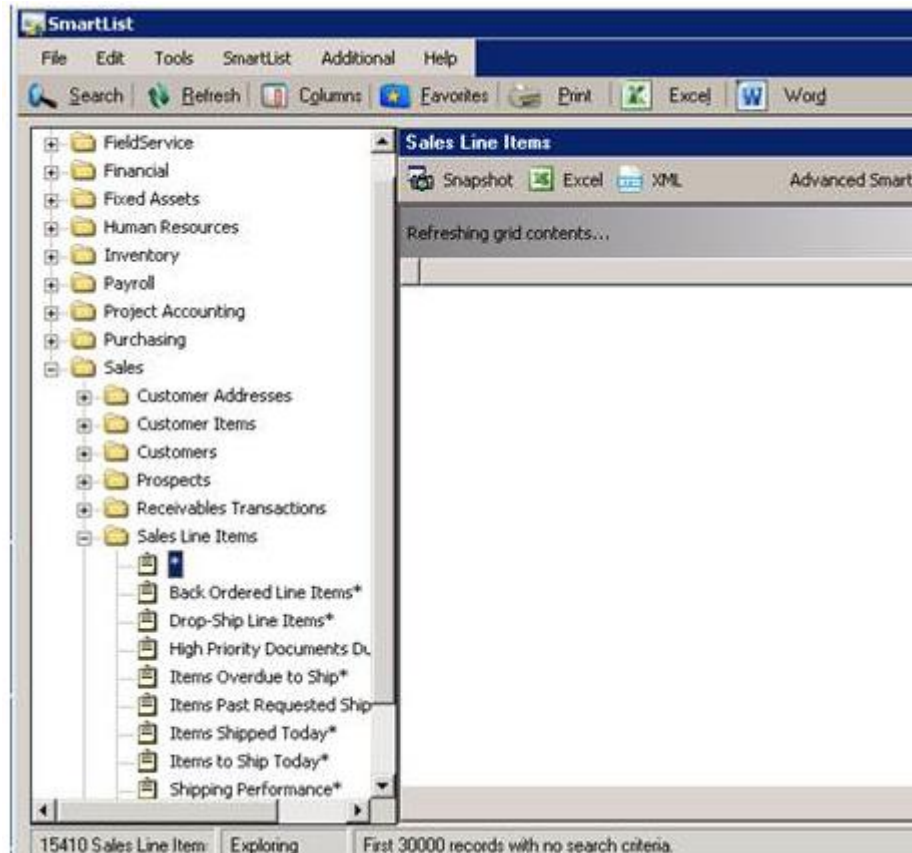

2. **Enhancement compatibility with Service Pack R2 Ribbons.**
   The Advanced SmartList options will now appear accordingly when using the windows command display's Action Pane and Action Pane Strip.

   Action Pane windows Command Display

Action Pane Strip windows Command Display

Resolved Issues

1. **Fixed issues with links on Encore product registration page.**
   Links will now direct user to appropriate website.

Build 5.00.00.011(rebuild) – Dec 12, 2014

Resolved Issues

1. **Fixed issues with Loading Data Please wait message.**

   This message will appear automatically if the user cancelled or closed the Search window.
   By selecting close or cancel was causing the grid refreshing. This error will no longer occur.

Build 5.00.00.011 – Dec 5, 2014

Resolved Issues

1. **Fixed issues with Loading Data Please wait message.**

   Initially this message will appear automatically if the user interrupted the loading at record count 0 when double-clicking on the SmartList to access the search window. This error will no longer occur.

Build 5.00.00.010 - Oct 23, 2014

Enhancements

1. **Enhancement XML Export option**
   Users will now have the ability to export their SmartList directly to an XML file from the SmartList window. This is done through a new XML button that the user will select.
   Once the button is selected a new window will appear to insert the file name and set the location where to save the file.

   Example of XML export file

```xml
<?xml version="1.0"?>
- <DocumentElement>
  - <AdvanceSmartList>
      <SOP_x0020_Type>Back Order</SOP_x0020_Type>

```
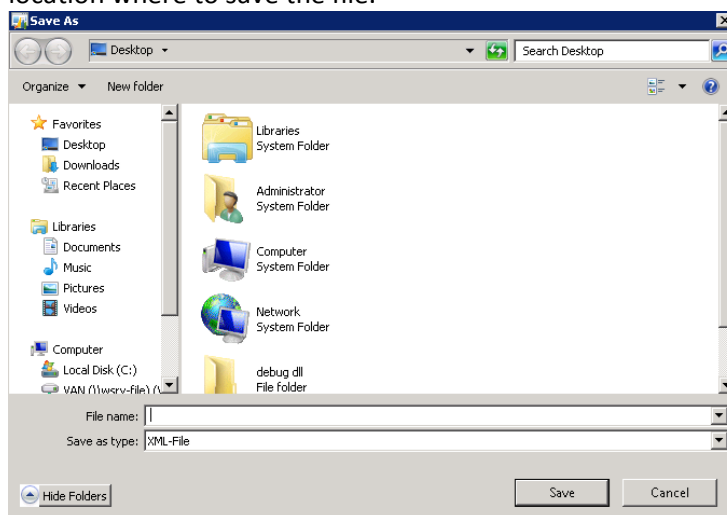

Resolved Issues

1. **Fixed issues with Group count resetting on initial selection.**

   Group count will no longer reset on initial selection

2. **Resolved issue of Quantity count exporting incorrectly.**
   Transactions rows with Quantity exceeding 999 will now export to excel with appropriate count.

3. **Fixed issue of GP crashing when exporting to Excel**
   Issue the result when attempting to Export to Excel for a large volume of transaction rows exceeding 164,000 rows. Issue the result of timing as list did not complete generating in ASL when user selects the export to Excel. Update to resolve issue consists of pop up indicator informing user that data is being loaded.

Build 5.00.00.009 - July 3, 2014

Enhancements

1. **Blank Date enhancement.**
   Updated Advanced Smartlist so should there no longer be a date entered it will now appear as blank instead of 01/01/1900

Support Request Tip:

To assist in expediting the review of any issues please ensure that the following information is provided with a support request:
- What product is the support inquiry for?
- What Version of GP is used?
- What is the build number installed for the product?
    - (This can be found by logging into GP as SA and going to Microsoft Dynamics GP > Tools > support > system > Encore product registration Once there locate the product from the list and zoom into the build to the location where you enter the registration keys. Once there select the About link. This will open a new window listing the Build number.)
