Build 18.007 – Sept 18, 2020

Record Load Updates

1. **Resolved issue with date columns displaying 01/01/00 for blank dates.**

Issue observed if system date set for 2-digit Year and date field contains a blank date. When records loaded into the SmartList it would show 01/01/00 instead of blank. This is now updated so it correctly shows a blank date.

Build 18.006 – Aug 25, 2020

Excel Export Updates

1. **Resolved issue with additional columns having prevailing 0's stripped on export when grouping by column.**

Issue observed should SmartList contain multiple columns with prevailing 0's and one of these columns was grouped the additional column with prevailing 0's had the 0's stripped on the excel export. This issue is now resolved.

Build 18.005 – July 24, 2020

Excel Export Updates

1. **Resolved issue with ASL export to excel stripping prevailing 0's on grouped columns**

Issue observed should column that is grouped contain prevailing 0's the prevailing 0's were stripped from the column. This issue is now resolved.

Build 18.004 – April 09, 2020

Resolved Issues

1. **Resolved issue with Smartlist Designer Smartlist Objects.**

Issue observed when user would change the column order for Smartlist Object that was built using SmartList Designer. When the columns changed the values were displayed in the incorrect order for these Columns.

Build 18.003 – Nov 06, 2019

Resolved Issues

1. **Resolved issue with Filter Editor for Blanks and NonBlanks.**

Issue observed when using the Filter Editor on columns to display Blanks and NonBlanks not filtering results correctly. This is now resolved.

Build 18.002 – Feb 08, 2018

Enhancements

1. **Improved performance when exporting with currency symbol.**

Code adjusted for exporting with currency symbol to improve the processing time when exporting to excel.

Resolved Issues

1. **Resolved issue with Export to excel failing to display originating amounts for Smartlist objects created through Designer.**

Issue observed when SmartList object is created through Designer and contains transactions that are not functional currency. The excel export is displaying the amount as 0.00 instead of the actual amount on the Originating currency. This issue is now resolved.

Build 18.001 – Feb 01, 2018

Enhancements

1. **ASL build created for GP2018**

Code was rolled up from ASL Build 16.010 of GP2016.

Additional Product Support Resources

Access the latest Product Builds: <http://www.encorebusiness.com/solutions/#microsoft-dynamics-add-ons>

Request registration keys: regkeys@encorebusiness.com

Visit our Advanced SmartList product page [here](#) on our website to access:

- User Manuals, click on the Resources Option
- Product demos, click on the Resources Option

Product Support:

Email: Support@encorebusiness.com

Phone: 1.888.898.4330

Online submission form: <http://www.encorebusiness.com/support/encore-apps/>

Support Request Tip:

To assist in expediting the review of any issues please ensure that the following information is provided with a support request:

- What product is the support inquiry for?
- What Version of GP is used?
- What is the build number installed for the product?
- (this can be found by logging into GP as SA and going to Microsoft Dynamics GP > Tools > support > system > Encore product registration Once there locate the product from the list and the Build number would be listed on the right hand side under Version)
